

...reducing avoidable harms

Pressure Area Care

POLYFLOAT™ Aero Mattresses

...safe, effective, harm free care

Pressure Reducing Reactive Therapy

The POLYFLOAT Aero mattress is designed to redistribute interface pressure, reduce shear and provide comfort on profiling or non-profiling beds.

OPTIMISED IMMERSION AND ENVELOPMENT

The POLYFLOAT Aero features a series of castellations across the mattress surface. These assist the foam to conform to individual body contours, which redistributes pressure by allowing the partial immersion and envelopment of the patient.

UNIQUE AERO CHANNEL DESIGN

The unique network of intersecting air channels of the POLYFLOAT Aero mattress assist with mattress profiling and patient comfort.

ZONED MATTRESS

The POLYFLOAT Aero mattress has dedicated head, torso and heel zones to provide the patient with optimal support and pressure redistribution across the body.

ASSISTED PATIENT TRANSFER

Intentionally wider edges on each side of the POLYFLOAT Aero mattress enhance patient stability and assist with patient transfers and care.

MULTI-STRETCH COVER

The multi-stretch cover reduces shear and friction during patient movement or manual repositioning. The material is waterproof and moisture-vapour permeable, contributing to the management of the skin 'microclimate' between the patient and support surface. All seams are welded to protect the inside of the mattress from any fluid ingress.

Polyfloat™ Aero

TECHNICAL DATA

Length:	1980 mm
Width:	860 mm
Depth:	150 mm
Weight:	14 kg
Weight limit:	200 kg
Foam density:	40kg/m ³
Fatigue rating:	Very severe

POLYFLOAT Aero is a Trade Mark of Talley Group Limited.
